

Maths and English Practice Development Group (PDG) Exchanges – Midlands 2021

PDG Exchanges are a series of fully subsidised, online, short events designed by practitioners for practitioners on a range of current teaching, learning and assessment topics. Each session unpacks a 'big' evidence-informed idea, models an online tool which can help bring the idea alive for learners, and provides a safe solo/peer space for participants to test the tool within a maths/English context. Join us and expand your thinking and (online) practices.

PDG Exchange	Dates
Developing learners' oracy via video - Using Flipgrid For full details and to book, click here	Wed 24 March 13:30 -15:00
Developing learners' maths skills through careful lesson and scheme planning For full details and to book, click here	Tue 30 March 16:00 - 18:00
